

# We'MOON 2027: OVER THE MOON

For *We'Moon 2027* we call on the Waning Gibbous Moon to be our guiding light. Under her still-bright-glow, we enter a sacred phase of harvest and reflection, gathering the wisdom that the full moon illuminated. Her softening glow reminds us to trust in the natural cycles of release and renewal, even as the letting go can sometimes be painful.

In this liminal space, we dip our toes into the mysterious shadow realms in search of guidance from within and without—this is a time to meditate, pull tarot cards, reflect on dreams, and attune to the subtle whispers of the unseen. Transformation stirs beneath the surface—in the quiet hum of the cosmos, endings are honored as sacred passages, preludes to new beginnings.

O Luna!  
*Full is Over, Round is Waning*  
*Shadow softly curves her veil of promise.*  
*O Changing Face of Radiance, blazing bright in black sky,*  
*a tilt of Dark perched on your once-round edge.*  
*Sky Chameleon, gently changing, phase after phase*  
*Letting go, nurturing subtle, deep lessons of Shade.*  
*Welcome Hecate, Dark Entrancing Mother,*  
*Guide us to your threshold 'twixt Was and Will Be.*  
*Sophia, Wisdom Moon of Insight:*  
*We see less of you, more of us.*

*Come, All You Moon Savvy Goddesses:*  
*Sarasvati, Metis, Nephthys—Take us over the top,*  
*and below, to enter your secrets.*  
*Ereshkigal, Ah! You release us now to study The Hidden.*  
*We surrender: the visible human world can break our hearts.*  
*Succor us with The Unseen.*  
*Demeter, Harvest Mother, we are over the Moon!*  
*We praise your fruiting mysteries, abundant revelations.*  
*Go Ahead, Gibbous Moon: Lead us on your journey!*
